

**A correction to the paper
“Upper bounds for class numbers of real quadratic fields”**

(Acta Arith. 68 (1994), 141–144)

by

MAOHUA LE (Zhanjiang)

I wish to correct the second reference in [1] as follows:

B. Oriat, *Groupes des classes d'idéaux des corps quadratiques réels*
 $\mathbb{Q}(d^{1/2})$, $1 < d < 24572$, Théorie des nombres, Années 1986/87-1987/88,
Fasc. 2, 65 pp., Besançon, 1988.

I apologize to B. Oriat for the oversight.
