PREFACE

The *Finnish-Polish-Ukrainian Summer School in Complex Analysis* was organized in Lublin (Poland), August 15–21, 1996. This volume contains the main part of the lectures given at the Summer School. The remaining part was already published in Bull. Soc. Sci. Lettres Łódź 47, Sér. Rech. Déform. 24 (1997), 171 pp., and 48, Sér. Rech. Déform. 25 (1998), 125 pp.

The Finnish-Polish Summer Schools in Complex Analysis have already come of age: The First School was organized at Podlesice, 1977, the Second in Jyväskylä, 1983, the Third in Lublin, 1986, and the Fourth again in Jyväskylä, 1992. The Fifth Summer School was attended by 128 mathematicians, 14 from Finland, 51 from Poland, 17 from Ukraine, and 46 from other 16 countries: U.S.A. – 8, Germany and Romania – 5 each, Russia and Sweden – 4 each, Canada, Mexico and Norway – 3 each, India, Israel and Japan – 2 each, Armenia, Hong Kong, Ireland, Italy and Yugoslavia – 1 each.

The organizers gratefully acknowledge financial support from the Catholic University of Lublin, Banach Center, and Finnish and Polish Academies of Sciences.

The Editors would like to express special thanks to Wojciech Kawa who took care of the technical preparation of this volume, and to the staff of the Publications Department of the Institute of Mathematics, Polish Academy of Sciences.

Lublin, April 1999
