FUNDAMENTA
MATHEMATICAE
L (1962)

INDEX ALPHABÉTIQUE DES TOMES XLI—L (1954—1962)*

Abian, S.

1. A nowhere differentiable and except on a denumerable set everywhere continuous function, t. XLIX, p. 181-182.

Addison, J. W.

1. Separation principles in the hierarchies of classical and effective descriptive set theory, t. XLVI, p. 123-135.
2. Some consequences of the axiom of constructibility, t. XLVI, p. 337-357.

Alexandroff, P.

11. О некоторых новых достижениях в комбинаторной топологии незамкнутых множеств, t. XLI, p. 68-88.
12. О двух теоремах Ю. Смирнова в теории бикомпактных расширений, t. XLIII, p. 394-398.
13. (и В. Пономарев) О диадических бикомпактах, t. L, p. 419-429.

Bagemihl, F.

2. (and P. Erdös) Intersections of prescribed power, type, or measure, t. XLI, p. 57-67.
3. Addendum to "An extension of Sperner's Lemma, with applications to closed-set coverings and fixed points", t. XLI, p. 351.
4. (and L. Gillman) Generalized dissimilarity of ordered sets, t. XLII, p. 141-165.
5. (and L. Gillman) Some cofinality theorems on ordered sets, t. XLIII, p. 178-184.

Balachandran, V. K.

1. A characterization of $\Sigma\Delta$-rings of subsets, t. XLI, p. 38-41.

Balcerzyk, S.

1. On algebraically compact groups of I. Kaplansky, t. XLIV, p. 91-93.
2. (and Jan Mycielski) On the method of category in analytic manifolds, t. XLIV, p. 295-299.
3. (and Jan Mycielski) On the existence of free subgroups in topological groups, t. XLIV, p. 303-308.
4. (and Jan Mycielski) On faithful representations of free products of groups, t. L, p. 63-71.
5. On groups of functions defined on Boolean algebras, t. L, p. 347-367.

Banaschewski, B.

1. On the Weierstrass-Stone approximation theorem, t. XLIV, p. 249-252.
2. On transfinite iteration, t. XLVI, p. 225-229,
3. Orderable spaces, t. L, p. 21-34.

---

* L'index présent est la suite de celui des t. I-XV inséré au t. XV (1930), des t. XVI-XXV inséré au t. XXV (1935) et des t. XXVI-XL inséré au t. XL (1953).

Belowska, L.
1. Résolution d'un problème de M. Z. Zahorski sur les limites approximatives, t. XLVIII, p. 277-286.

Berstein, I.
1. Remarques sur un théorème de F. J. Dyson relatif à la sphère, t. XLIII, p. 89-94.
2. On the factorizability of maps of S^n into S^n, t. XLV, p. 138-142.
3. (and T. Ganea) Remark on spaces dominated by manifolds, t. XLVII, p. 45-56.
4. (and T. Ganea) The category of a map and of a cohomology class, t. L, p. 265-279.

Besicovitch, A. S.
5. Metric property of linear sets, t. L, p. 13-20.

Białynicki-Birula, A.
1. On the topological structure of infinite Galois groups, t. XLIV, p. 72-74.
2. On the spaces of ideals of semirings, t. XLV, p. 247-253.

Bing, R. H.
2. Conditions under which a surface in E^3 is tame, t. XLVII, p. 105-139.
3. Point-like decompositions of E^3, t. L, p. 431-453.

Borsuk, K.
42. On some metrizations of the hyperspace of compact sets, t. XLI, p. 168-202.
43. Families of compacta and some theorems on sweeping, t. XLII, p. 240-258.
44. On a concept of dependence for continuous mappings, t. XLIII, p. 95-113.
45. (and R. Molski) On a class of continuous mappings, t. XLV, p. 84-98.
46. Concerning the classification of topological spaces from the stand-point of the theory of retracts, t. XLVI, p. 321-330.
47. On a metrization of polytopes, t. XLVII, p. 325-341.
48. Dependence of mappings and equivalence of sets, t. XLIX, p. 321-336.
49. Remarks on the homotopic join of maps, t. L, p. 195-206.

Bourgin, D. G.
1. Deformation and mapping theorems, t. XLVI, p. 285-303.

Büchi, J. R.
1. On the existence of totally heterogeneous spaces, t. XLI, p. 97-102.

Cartwright, M. L.
1. Some decomposition theorems for certain invariant continua and their minimal sets, t. XLVIII, p. 229-250.

Chang, C. C.
1. Maximal n-disjointed sets and axiom of choice, t. XLIX, p. 11-14.

Charatonik, J. J.
1. Remarque à un travail de Z. Waraszkiewicz, t. L, p. 497-500.

Corson, H. H.
1. Collections of convex sets which cover a Banach space, t. XLIX, p. 143-145.

Császár, A.
2. (et S. Mrówka) Sur la compactification des espaces de proximité, t. XLVI, p. 195-207.
3. Sur la représentation topologique des graphes, t. L, p. 249-256.

Curtis, M. L.
1. A note on Kosiński's r-spaces, t. XLVI, p. 25-27.

Dekker, T. J.
1. (and J. de Groot) Decompositions of a sphere, t. XLIII, p. 185-194.

Dowker, C. H.
1. (and W. Hurewicz) Dimension of metric spaces, t. XLIII, p. 83-88.

Duda, R.
1. Sur le prolongement des homéomorphies, t. XLVI, p. 175-186.
2. Reconnaissance de priorité, t. XLVI, p. 360.

Dyer, E.
1. (and M.-E. Hamstrom) Completely regular mappings, t. XLV, p. 103-118.
2. On the dimension of products, t. XLVII, p. 141-160.

Eckmann, B.
1. (and P. J. Hilton) Structure maps in group theory, t. L, p. 207-221.

Eggleston, H. G.
2. A property of plane homeomorphisms, t. XLII, p. 61-74.

Ehrenfeucht, A.
1. (and A. Mostowski) Models of axiomatic theories admitting automorphisms, t. XLIII, p. 50-68.
2. On theories categorical in power, t. XLIV, p. 241-248.
3. An application of games to the completeness problem for formalized theories, t. XLIX, p. 128-141.

Eilenberg, S.
27. (and K. Kuratowski) A remark on duality, t. L, p. 515-517.

Engelking, R.
1. Sur la compactification des espaces métriques, t. XLVIII, p. 321-324.
2. (and K. Kuratowski) Quelques théorèmes de l'Algèbre de Boole et leurs applications topologiques, t. L, p. 519-535.

Erdös, P.
1. (and F. Bagemihl) Intersections of prescribed power, type, or measure, t. XLI, p. 57-67.

Fast, H.
1. Площадь обобщенного круга как функция его радиуса (I), t. XLVI, p. 137-146.
2. Площадь обобщенного круга как функция его радиуса (II), t. XLVI, p. 147-163.

Feferman, S.
1. (and R. L. Vaught) The first order properties of products of algebraic systems, t. XLVII, p. 57-103.
2. Arithmetization of metamathematics in a general setting, t. XLIX, p. 35-92.

Fleischer, I.
1. Embedding linearly ordered sets in real lexicographic products, t. XLIX, p. 147-150.

Fort, M. K., Jr.
1. Category theorems, t. XLII, p. 276-288.
2. Extension of the set on which mappings into S^n are homotopic, t. XLVIII, p. 271-276.

Freudenthal, H.
5. Bündige Räume, t. XLVIII, p. 307-312.
6. Die Fundamentalgruppe der Mannigfaltigkeit der Tangentialrichtungen einer geschlossenen Fläche, t. L, p. 537-538.

Fuchs, L.
1. Note on ordered groups and rings, t. XLVI, p. 167-174.

Ganea, T.
3. On ε-maps onto manifolds, t. XLVII, p. 35-44.
4. (and I. Berstein) Remark on spaces dominated by manifolds, t. XLVII, p. 45-56.
5. (and I. Berstein) The category of a map and of a cohomology class, t. L, p. 265-279.

Gillman, L.
1. (and F. Bagemihl) Generalized dissimilarity of ordered sets, t. XLII, p. 141-165.
2. Some remarks on η_α-sets, t. XLIII, p. 77-82.
3. (and F. Bagemihl) Some cofinality theorems on ordered sets, t. XLIII, p. 178-184.
4. Rings with Hausdorff structure space, t. XLV, p. 1-16.

Ginsburg, S.
3. Decompositions of a set into disjoint pairs, t. XLI, p. 278-283.

Gleichgewicht, B.
1. On a class of rings, t. XLVIII, p. 355-359.

Goetz, A.
1. О сепарабельности топологических групп, t. XLII, p. 55-56.
2. Примечание к работе „О сепарабельности топологических групп", t. XLII, p. 356.
3. Invariante Metriken in homogenen Räumen, t. XLV, p. 78-83.

Goffman, C.
1. (and R. E. Zink) Concerning the measurable boundaries of a real function, t. XLVIII, p. 105-111.
2. (and D. Waterman) On upper and lower limits in measure, t. XLVIII, p. 127-133.

Gołąb, S.
3. La relation d'équivalence et les objets géométriques, t. L, p. 381-386.

Goodstein, R. L.
1. A constructivist theory of plane curves, t. XLIII, p. 23-35.

Granas, A.
1. On local disconnection of Euclidean spaces, t. XLI, p. 42-48.
2. К теории когомотопических групп Борсука, t. XLIV, p. 159-164.
3. On the disconnection of Banach spaces, t. XLVIII, p. 189-200.

Griffiths, H. B.
1. Borel sets and countable series of operations, t. XLIV, p. 115-155.

de Groot, J.
1. Continuous mappings of a certain family, t. XLII, p. 203-206.
2. (and T. J. Dekker) Decompositions of a sphere, t. XLIII, p. 185-194.
3. (and R. H. McDowell) Extension of mappings on metric spaces, t. XLVIII, p. 251-263.

Grzegorczyk, A.
2. Elementarily definable analysis, t. XLI, p. 311-338.
3. Computable functionals, t. XLII, p, 168-202.
4. On the definition of computable functionals, t. XLII, p. 232-239.
5. Some proofs of undecidability of arithmetic, t. XLIII, p. 166-177.
6. On the definitions of computable real continuous functions, t. XLIV, p. 61-71.

Hájek, O.
1. Note sur la mesurabilité B de la dérivée supérieure, t. XLIV, p. 238-240.

Hajnal, A.
1. Proof of a conjecture of S. Ruziewicz, t. L, p. 123-128.

Halmos, P. R.
1. Algebraic logic (II). Homogeneous locally finite polyadic Boolean algebras of infinite degree, t. XLIII, p. 255-325.

Hamstrom, M.-E.
1. (and E. Dyer) Completely regular mappings, t. XLV, p. 103-118.

Hartman, S.
2. (et A. Hulanicki) Les sous-groupes purs et leurs duals, t. XLV, p. 71-77.

Henkin, L.
2. Boolean representation through propositional calculus, t. XLI, p. 89-96.

Henriksen, M.
1. (and D. G. Johnson) On the structure of a class of archimedean lattice-ordered algebras, t. L, p. 73-94.
2. (and J. R. Isbell and D. G. Johnson) Residue class fields of lattice-ordered algebras, t. L, p. 107-117.

Hewitt, E.
2. A note on 0-dimensional compact groups, t. L, p. 95-97.

Hilton, P. J.
1. Note on quasi-Lie rings, t. XLIII, p. 230-237.
2. On divisors and multiples of continuous maps, t. XLIII, p. 358-386.
3. (and B. Eckmann) Structure maps in group theory, t. L, p. 207-221.

Hofmann, H.
1. Über eine Dimensionstheorie in topologischen Verbänden, t. XLII, p. 289-311.

Horne, J. G., Jr.
1. Some multiplicative aspects of ideal structure theory, t. XLVIII, p. 27-55.

Hu, S. T.
3. Continuous associative multiplications in locally triangulable spaces, t. XLVI, p. 109-115.

Hulanicki, A.
1. On locally compact topological groups of power of continuum, t. XLIV, p. 156-158.
2. Algebraic characterization of abelian divisible groups which admit compact topologies, t. XLIV, p. 192-197.
3. (et S. Hartman) Les sous-groupes purs et leurs duals, t. XLV, p. 71-77.
4. On the topological structure of 0-dimensional topological groups, t. XLVI, p. 317-320.

Hunter, R. P.
1. Note on arcs in semigroups, t. XLIX, p. 233-245.

Hurewicz, W.
11. (and C. H. Dowker) Dimension of metric spaces, t. XLIII, p. 83-88.

Iqbalunnisa
1. Neutral ideals and congruences, t. XLVIII, p. 343-353.

Isbell, J. R.
1. (and M. Henriksen and D. G. Johnson) Residue class fields of lattice-ordered algebras, t. L, p. 107-117.

James, I. M.
1. Suspension of transgression, t. L, p. 501-507.

Jaroń, J.
1. On the extensibility of mappings, their local properties and some of their connections with the dimension theory, t. XLVIII, p. 287-305.

Jaśkowski, S.
1. Undecidability of first order sentences in the theory of free groupoids, t. XLIII, p. 36-45.

Jaworowski, J. W.
2. On antipodal sets on the sphere and on continuous involutions, t. XLIII, p. 241-254.
3. On simple regular mappings, t. XLV, p. 119-129.
4. Some consequences of the Vietoris mapping theorem, t. XLV, p. 261-272.
5. A note of correction to the paper "Some consequences of the Vietoris mapping theorem", t. XLVI, p. 359.
6. Some remarks on Borsuk generalized cohomotopy groups, t. L, p. 257-264.
7. Generalized cohomotopy groups as limits groups, t. L, p. 393-402.

Johnson, D. G.
1. (and M. Henriksen) On the structure of a class of archimedean lattice-ordered algebras, t. L, p. 73-94.
2. (and M. Henriksen and J. R. Isbell) Residue class fields of lattice-ordered algebras, t. L, p. 107-117.

Katětov, M.
5. Характеры и типы точечных множеств, t. L, p. 369-380.

Kinna, W.
1. (und K. Wagner) Über eine Abschwächung des Auswahlpostulates, t. XLII, p. 75-82.

Kirkor, A.
1. Wild 0-dimensional sets and the fundamental group, t. XLV, p. 228-236.

Klee, V.
1. Mappings into normed linear spaces, t. XLIX, p. 25-34.

Kleene, S. C.
2. Lambda-definable functionals of finite types, t. L, p. 281-303.

Knaster, B.
16. (et A. Lelek) Coutures et tapis, t. XLV, p. 186-199.
17. (et J. Mioduszewski) Division des régions partielles par les frontières et des frontières par les points, t. XLV, p. 306-313.

Koch, R. J.
1. (and L. F. McAuley) Semigroups on trees, t. L, p. 341-346.

Kodama, Y.
1. On homotopically stable points and product spaces, t. XLIV, p. 171-185.
2. On a closed mapping between ANR's, t. XLV, p. 217-227.

Kohls, C. W.
1. The space of prime ideals of a ring, t. XLV, p. 17-27.
2. Ideals in rings of continuous functions, t. XLV, p. 28-50.

Kosiński, A.
1. On manifolds and r-spaces, t. XLII, p. 111-124.
2. On a problem of Steinhaus, t. XLVI, p. 47-59.
3. Some theorems about two-dimensional polyhedra, t. XLVII, p. 1-28.

Kowalsky, H.-J.
1. Kennzeichnung von Bogen, t. XLVI, p. 103-107.

Kreisel, G.
3. (and H. Wang) Some applications of formalized consistency proofs, t. XLII, p. 101-110.
4. (and H. Wang) Applications of formalized consistency proofs II, t. XLV, p. 334-335.

Kuczma, M.
1. On the functional equation $f(x+y) = f(x)+f(y)$, t. L, p. 387-391.

Kuratowski, K.
84. Fonctions rationnelles qui sont homotopes à des fonctions biunivoques sur certains sous-ensembles du plan, t. XLI, p. 107-121.
85. Sur une méthode de métrisation complète de certains espaces d'ensembles compacts, t. XLIII, p. 114-138.
86. (and S. Eilenberg) A remark on duality, t. L, p. 515-517.
87. (et R. Engelking) Quelques théorèmes de l'Algèbre de Boole et leurs applications topologiques, t. L, p. 519-537.

Kurepa, G.
1. General continuum hypothesis and ramifications, t. XLVII, p. 29-33.

Leader, S.
1. On clusters in proximity spaces, t. XLVII, p. 205-213.
2. On completion of proximity spaces by local clusters, t. XLVIII, p. 201-216.

Lederer, G.
1. A problem on Baire classes, t. XLVIII, p. 85-89.

Lehman, R. S.
1. On primitive recursive real numbers, t. XLIX, p. 105-118.

Lelek, A.
1. Sur l'unicohérence, les homéomorphies locales et les continus irréductibles, t. XLV, p. 51-63.
2. (et B. Knaster) Coutures et tapis, t. XLV, p. 186-199.
3. Ensembles σ-connexes et le théorème de Gehman, t. XLVII, p. 265-276.
4. (and W. Nitka) On convex metric spaces I, t. XLIX, p. 183-204.
5. (and Jan Mycielski) Some conditions for a mapping to be a covering, t. XLIX, p. 295-300.
6. On plane dendroids and their end points in the classical sense, t. XLIX, p. 301-319.
7. A property of accessible points, t. L, p. 509-514.

Lévy, A.
1. The independence of various definitions of finiteness, t. XLVI, p. 1-13.
2. Principles of reflection in axiomatic set theory, t. XLIX, p. 1-10.
3. Axioms of multiple choice, t. L, p. 475-483.

Lipiński, J. S.
1. Une propriété des ensembles $\{f'(x) > a\}$, t. XLII, p. 339-342.
2. Sur les ensembles $\{f(x) > a\}$, où $f(x)$ sont des fonctions intégrables au sens de Riemann, t. XLIII, p. 202-229.
3. Sur certains problèmes de Choquet et de Zahorski concernant les fonctions dérivées, t. XLIV, p. 94-102.
4. Sur les ensembles $\{f'(x) > a\}$, t. XLV, p. 254-260.

Łoś, J.
4. (and C. Ryll-Nardzewski) Effectiveness of the representation theory for Boolean algebras, t. XLI, p. 49-56.
5. On the extending of models (I), t. XLII, p. 38-54.
6. (and R. Suszko) On the extending of models (II). Common extensions, t. XLII, p. 343-347.
7. (and R. Suszko) On the extending of models (IV). Infinite sums of models, t. XLIV, p. 52-60.
8. Remarks on Henkin's paper: Boolean representation through propositional calculus, t. XLIV, p. 82-83.
9. Abelian groups that are direct summands of every abelian group which contains them as pure subgroups, t. XLIV, p. 84-90.
10. (and J. Słomiński and R. Suszko) On extending of models (V). Embedding theorems for relational models, t. XLVIII, p. 113-121.

Macbeath, A. M.
1. (and S. Świerczkowski) Measures in homogenous spaces, t. XLIX, p. 15-24.

Mahavier, Wm. S.
1. Rates of change and functional relations, t. XLVIII, p. 265-269.

Marczewski, E.
31. Independence in algebras of sets and Boolean algebras, t. XLVIII, p. 135-145.
32. Independence and homomorphisms in abstract algebras, t. L, p. 45-61.

Mardešić, S.
1. Equivalence of singular and Čech homology for ANR-s. Application to unicoherence, t. XLVI, p. 29-45.

Markwald, W.
1. Zur Eigenschaft primitiv-recursiver Funktionen, unendlich viele Werte anzunehmen, t. XLII, p. 166-167.

Matysiak, A.
1. Sur les limites approximatives, t. XLVIII, p. 363-366.

McAuley, L. F.
1. (and R. J. Koch) Semigroups on trees, t. L, p. 341-346.

McDowell, R. H.
1. (and J. de Groot) Extension of mappings on metric spaces, t. XLVIII, p. 251-263.

Menger, Karl
5. Rates of change and derivatives, t. XLVI, p. 89-102.

Michael, E.
1. Dense families of continuous selections, t. XLVII, p. 173-178.

Mickle, E. J.
1. (and T. Radó) On covering theorems, t. XLV, p. 325-331.

Mioduszewski, J.
1. (et B. Knaster) Division des régions partielles par les frontières et des frontières par les points, t. XLV, p. 306-313.
2. Sur l'accessibilité des points d'ensembles fermés dans les espaces euclidiens, t. XLV, p. 314-319.

Mišík, L.
1. Der Mittelwertsatz für additive Intervallfunktionen, t. XLV, p. 64-70.

Molski, R.
1. On symmetric products, t. XLIV, p. 165-170.
2. (and K. Borsuk) On a class of continuous mappings, t. XLV, p. 84-98.

Montague, R.
1. (and R. L. Vaught) Natural models of set theories, t. XLVII, p. 219-242.
2. (and R. L. Vaught) A note on theories with selectors, t. XLVII, p. 243-247.

Moore, J. C.
1. On a theorem of Borsuk, t. XLIII, p. 195-201.

Morita, K.
1. Paracompactness and product spaces, t. L, p. 223-236.

Morse, M.
1. Schoenflies problems, t. L, p. 319-332.

Mostowski, A.
13. A formula with no recursively enumerable model, t. XLII, p. 125-140.
14. Examples of sets definable by means of two and three quantifiers, t. XLII, p. 259-270.
15. Contributions to the theory of definable sets and functions, t. XLII, p. 271-275.
16. (and A. Ehrenfeucht) Models of axiomatic theories admitting automorphisms, t. XLIII, p. 50-68.
17. L'oeuvre scientifique de Jan Łukasiewicz dans le domaine de la loqique mathématique, t. XLIV, p. 1-11.
18. On a generalization of quantifiers, t. XLIII, p. 12-36.
19. On computable sequences, t. XLIV, p. 37-51.
20. A generalization of the incompleteness theorem, t. XLIX, p. 205-232.
21. Axiomatizability of some many valued predicate calculi, t. L, p. 165-190.

Mostowski, A. Włodzimierz
1. Nilpotent free groups, t. XLIX, p. 259-269.
2. On automorphisms of relatively free groups, t. L, p. 403-411.

Mrówka, S.
1. On completely regular spaces, t. XLI, p. 105-106.
2. On the ideals' extension theorem and its equivalence to the axiom of choice, t. XLIII, p. 46-49.
3. Замечание к работе П. Александрова „О двух теоремах Ю. Смирнова", t. XLIII, p. 399-400.
4. Recursive families of sets, t. XLIV, p. 186-191.
5. On the convergence of nets of sets, t. XLV, p. 237-246.
6. On function spaces, t. XLV, p. 273-282.
7. Functionals on uniformly closed rings of continuous functions, t. XLVI, p. 81-87.
8. Two remarks on my paper: "On the ideals' extension theorem and its equivalence to the axiom of choice", t. XLVI, p. 165-166.
9. (et A. Császár) Sur la compactification des espaces de proximité, t. XLVI, p. 195-207.
10. Axiomatic characterization of the family of all clusters in a proximity space, t. XLVIII, p. 123-126.

Mycielski, Jan
1. About sets with strange isometrical properties (I), t. XLII, p. 1-10.
2. On the paradox of the sphere, t. XLII, p. 348-355.
3. (and S. Balcerzyk) On the method of category in analytic manifolds, t. XLIV, p. 295-299.
4. On the extension of equalities in connected topological groups, t. XLIV, p. 300-302.

5. (and S. Balcerzyk) On the existence of free subgroups in topological groups, t. XLIV, p. 303-308.
6. (and S. Świerczkowski) On free groups of motions and decompositions of the Euclidean space, t. XLV, p. 283-291.
7. About sets with strange isometrical properties (II), t. XLV, p. 292-295.
8. About sets invariant with respect to denumerable changes, t. XLV, p. 296-305.
9. (and A. Lelek) Some conditions for a mapping to be a covering, t. XLIX, p. 295-300.
10. (and S. Balcerzyk) On faithful representations of free products of groups, t. L, p. 63-71.

Nagata, J.

1. Note on dimension theory for metric spaces, t. XLV, p. 143-181.
2. On the countable sum of zero-dimensional metric spaces, t. XLVIII, p. 1-14.

Narkiewicz, W.

1. Independence in a certain class of abstract algebras, t. L, p. 333-340.

Newman, P.

1. On a theorem of Urbanik, t. XLVI, p. 231-234.

Nitka, W.

1. (and A. Lelek) On convex metric spaces I, t. XLIX, p. 183-204.

Novák, J.

4. On a problem concerning completely regular sets, t. XLI, p. 103-104.
5. On the classification of $\sigma(B)$-measurable functions defined on an abstract point set, t. L, p. 413-418.

Okhuma, T.

1. Sur quelques ensembles ordonnés linéairement, t. XLIII, p. 326-337.

Orlicz, W.

4. Contribution to the theory of Saks spaces, t. XLIV, p. 270-294.

Oxtoby, J. C.

2. Cartesian products of Baire spaces, t. XLIX, p. 157-166.

Padmavally, K.

1. A remark of order-types, t. XLII, p. 312-318.

Poénaru, V.

1. Sur la cohomologie des cochaînes singulières invariantes sur un groupe topologique compact et connexe, t. L, p. 1-12.

Ponomarieff, W.

1. (и П. Александров) О диадических бикомпактах, t. L, p. 419-429.

Popruženko, J.

7. Sur le phénomène de convergence de M. Sierpiński, t. XLI, p. 29-37.
8. Sur une décomposition des ensebles indénombrables (I), t. XLI, p. 146-149.
9. Sur une propiété des transformations des ensembles abstraits, t. XLI, p. 163-167.
10. Sur une décomposition des ensembles indénombrables (II), p. XLI, p. 272-277.
11. Sur certains ensembles indénombrables singuliers de nombres irrationnels, t. XLII, p. 319-338.
12. Sur l'égalité $2^{\aleph_\lambda} = \aleph_{\lambda+1}$, t. XLIII, p. 148-155.
13. Sur la vitesse de la croissance des suites infinies d'entiers positifs I (Echelle des vitesses), t. XLVI, p. 235-242.
14. Sur la vitesse de la croissance des suites infinies d'entiers positifs II (Espace de vitesses), t. XLVIII, p. 71-78.

Previale, F.

1. On the order of the points of the n-dimensional Euclidean space, t. L, p. 463-473.

Radó, T.

7. Lebesgue area and Hausdorff measure, t. XLIV, p. 198-237.
8. (and E. J. Mickle) On covering theorems, t. XLV, p. 325-331.

Ranga Rao, R.

1. (and V. S. Varadarajan) On the decomposition of Haar measure in compact groups, t. XLIX, p. 119-127.

Rasiowa, H.

6. (and (R. Sikorski) On existential theorems in non-classical functional calculi, t. XLI, p. 21-28.
7. Algebraic models of axiomatic theories, t. XLI, p. 291-310.
8. (and R. Sikorski) An application of lattices to logic, t. XLII, p. 83-100.
9. On the ε-theorems, t. XLIII, p. 156-165.
10. Errata to the paper "On the ε-theorems", t. XLIV, p. 333.
11. $\mathcal{H}$-lattices and constructive logic with strong negation, t. XLVI, p. 61-80.
12. (and R. Sikorski) On the Gentzen theorem, t. XLVIII, p. 57-69.

Ravetz, J. R.

1. Derivate planes of continuous functions of two real variables, t. XLIV, p. 103-114.

Robinson, A.

1. Some problems of definability in the lower predicate calculus, t. XLIV, p. 309-329.
2. Solution of a problem of Tarski, t. XLVII, p. 179-204.
3. A note on embedding problems, t. L, p. 455-461.

Routledge, N. A.

1. Concerning definable sets, t. XLI, p. 6-11.

Rudin, M. E.

1. A connected subset of the plane, t. XLVI, p. 15-24.

Ryll-Nardzewski, C.

7. (and J. Łoś) Effectiveness of the representation theory for Boolean algebras, t. XLI, p. 49-56.

Sands, A. D.

1. (and S. Świerczkowski) Decomposition of the line in isometric three-point sets, t. XLVIII, p. 361-362.

Schmidt, J.

1. Einige algebraische Äquivalente zum Auswahlaxiom, t. L, p. 485-496.

Segal, J.

1. A fixed point theorem for the hyperspace of a snake-like continuum, t. L, p. 237-248.

Shields, A.

1. Sur la mesure d'une somme vectorielle, t. XLII, p. 57-60.

Shoenfield, J. R.

1. Undecidable and creative theories, t. XLIX, p. 171-179.

Sieklucki, K.

1. On a family of a power c consisiting of $\mathfrak{R}$-uncomparable dendrites, t. XLVI, p. 331-335.
2. On superpositions of simple mappings, t. XLVIII, p. 217-228.

3. The family of dendrites $\mathfrak{R}$-ordered similarly to the segment, t. L, p. 191-193.

Sierpiński, W.

256. Sur une relation entre deux substitutions linéaires, t. XLI, p. 1-5.
257. Sur l'équation $\xi^2 = \eta^2 + 1$ pour les nombres ordinaux transfinis, t. XLIII, p. 1-2.
258. Sur une propriété des nombres ordinaux, t. XLIII, p. 139-140.
259. Sur un théorème de S. Saks concernant les suites infinies de fonctions continues, t. XLVI, p. 117-121.
260. Sur un problème de H. Steinhaus concernant les ensembles de points sur le plan, t. XLVI, p. 191-194.
261. Sur les familles d'ensembles infinis de nombres naturels, t. XLIX, p. 151-155.
262. Sur un problème de la logique à n valeurs, t. XLIX, p. 167-170.

Sikorski, R.

16. Closure homomorphisms and interior mappings, t. XLI, p. 12-20.
17. (and H. Rasiowa) On existential theorems in non-classical functional calculi, t. XLI, p. 21-28.
18 (and K. Zarankiewicz) On uniformization of functions (I), t. XLI, p. 339-344.
19. On uniformization of functions (II), t. XLI, p. 345-350.
20. (and H. Rasiowa) An application of lattices to logic, t. XLII, p. 83-100.
21. Some applications of interior mappings, t. XLV, p. 200-212.
22. (and H. Rasiowa) On the Gentzen theorem, t. XLVIII, p. 57-69.
23. Distributivity and representability, t. XLVIII, p. 91-103.

Słomiński, J.

1. On the extending of models (III). Extensions in equationally definable classes of algebras, t. XLIII, p. 69-76.
2. On the determining of the form of congruences in abstract algebras with equationally definable constant elements, t. XLVIII, p. 325-341.
3. (and J. Łoś and R. Suszko) On extending of models (V). Embedding theorems for relational models, t. XLVIII, p. 113-121.

Słowikowski, W.

1. (and W. Zawadowski) A generalization of maximal ideals method of Stone and Gelfand, t. XLII, p. 215-231.
2. A theory of extensions of maps-systems I, t. XLVI, p. 243-275.
3. An abstract form of the measure theoretic method of exhaustion, t. XLVIII, p. 79-84.

Smirnoff, J. M.

1. О метризуемости бикомпактов, разлагающихся в сумму множеств со счётной базой, t. XLIII, p. 387-393.

Sobolev, S. L.

1. Некоторые обобщения теорем вложения, t. XLVII, p. 277-324.

Spector, C.

1. Hyperarithmetical quantifiers, t. XLVIII, p. 313-320.

Stallings, J.

1. Fixed point theorems for connectivity maps, t. XLVII, p. 249-263.

Staniszewska, J.

1. Sur la classe de Baire des dérivées de Dini, t. XLVII, p. 215-217.

Stein, S. K.

1. Continuous choice functions and convexity, t. XLV, p. 182-185.

Steinhaus, H.

6. Quelques applications des principes topologiques à la géométrie des corps convexes, t. XLI, p. 284-290.

Straus, E. G.

1. On a problem of W. Sierpiński on the congruence of sets, t. XLIV, p. 75-81.
2. On Sierpiński sets in groups, t. XLV, p. 332-333.

Sunyer i Balaguer, F.

1. Sur les types d'ordre distincts dont les n-ièmes puissances sont équivalentes, t. XLVI, p. 221-224.

Suszko, R.

1. (and J. Łoś) On the extending of models (II). Common extensions, t. XLII, p. 343-347.
2. (and J. Łoś) On the extending of models (IV). Infinite sums of models, t. XLIV, p. 52-60.
3. (and J. Łoś and J. Słomiński) On extending of models (V). Embedding theorems for relational models, t. XLVIII, p. 113-121.

Szász, F. A.

1. On cyclic groups, t. XLIII, p. 238-240.
2. Note on rings in which every proper left-ideal is cyclic, t. XLIV, p. 330-332.

Szmielew, W.

2. Elementary properties of Abelian groups, t. XLI, p. 203-271.
3. A new analytic approach to hyperbolic geometry, t. L, p. 129-158.

Śladkowska, J.

1. Sur l'ensemble des points de divergence des séries de Fourier des fonctions continues, t. XLIX, p. 271-294.

Świerczkowski, S.

1. On some equation in transfinite ordinals, t. XLV, p. 213-216.
2. (and Jan Mycielski) On free groups of motions and decompositions of the Euclidean space, t. XLV, p. 283-291.
3. On successive settings of an arc on the circumference of a circle, t. XLVI, p. 187-189.
4. On cyclically ordered groups, t. XLVII, p. 161-166.
5. On cyclically ordered intervals of integers, t. XLVII, p. 167-172.
6. (and A. D. Sands) Decomposition of the line in isometric three-point sets, t. XLVIII, p. 361-362.
7. (and A. M. Macbeath) Measures in homogenous spaces, t. XLIX, p. 15-24.
8. Algebras which are independently generated by every n elements, t. XLIX, p. 93-104.
9. On isomorphic free algebras, t. L, p. 35-44.

Tarnawski, E.

1. Continuous functions in the logarithmic-power classification according to Hölder's conditions, t. XLII, p. 11-37.
2. On the spaces of functions satisfying Hölder's condition, t. XLII, p. 207-214.
3. Continuous functions considered from standpoint of Dini's conditions, t. XLIII, p. 3-22.
4. On the spaces of functions satisfying Dini's condition, t. XLIII, p. 141-147.

Tatarkiewicz, K.

1. Les transformations unifoliées, t. XLI, p. 122-136.

Taylor, S. J.
1. On strengthening the Lebesgue density theorem, t. XLVI, p. 305-315.
2. An alternative form of Egoroff's theorem, t. XLVIII, p. 169-174.

Urbanik, K.
2. Quelques théorèmes sur les mesures, t. XLI, p. 150-162.
3. On the limiting probability distribution on a compact topological group, t. XLIV, p. 253-261.
4. On the isomorphism of Haar measures, t. XLVI, p. 277-284.
5. A representation theorem for Marczewski's algebras, t. XLVIII, p. 147-167.
6. Absolute-valued algebras with an involution, t. XLIX, p. 247-258.

Varadarajan, V. S.
1. On a theorem of F. Riesz concerning the form of linear functionals, t. XLVI, p. 209-220.
2. (and R. Ranga Rao) On the decomposition of Haar measure in compact groups, t. XLIX, p. 119-127.
